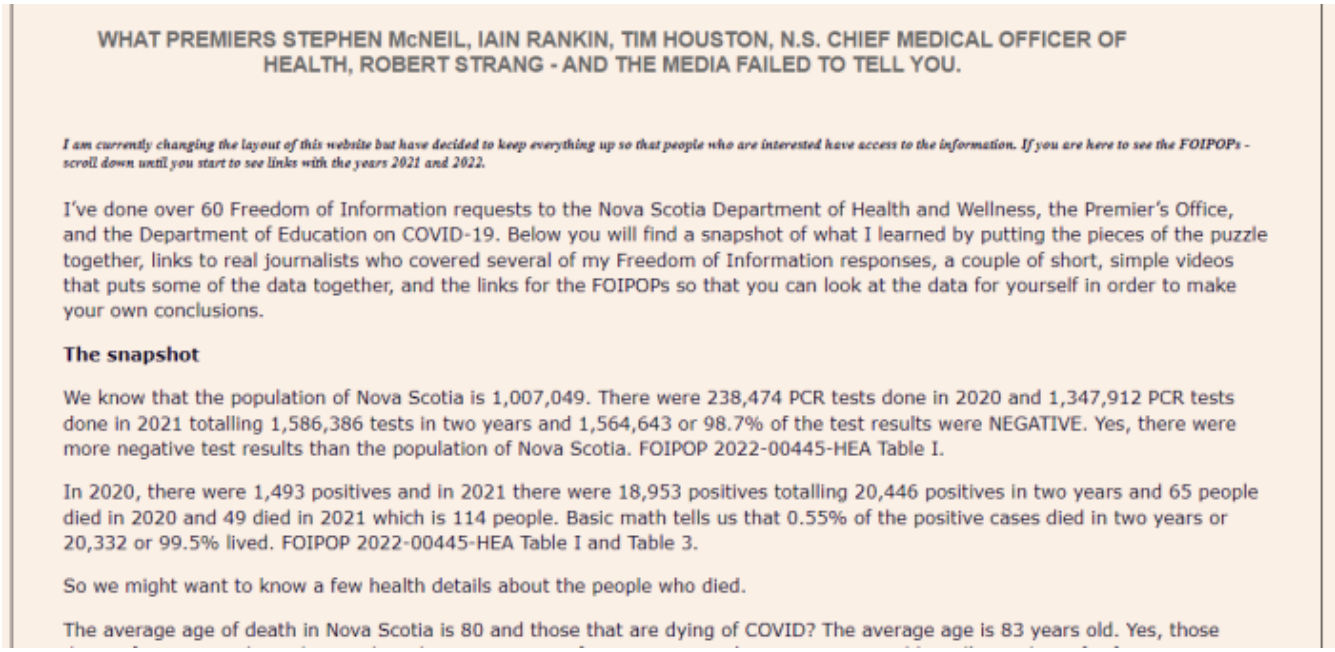
CANUCK LAW

Reporting That You're Not Getting Elsewhere (Do Your Own Research To Verify)

DECEMBER 7, 2022 BY RONNIE

Go Visit Shelly's Nova Scotia FOI Website!



WHAT PREMIERS STEPHEN McNEIL, IAIN RANKIN, TIM HOUSTON, N.S. CHIEF MEDICAL OFFICER OF HEALTH, ROBERT STRANG - AND THE MEDIA FAILED TO TELL YOU.

I am currently changing the layout of this website but have decided to keep everything up so that people who are interested have access to the information. If you are here to see the FOIPOPs - scroll down until you start to see links with the years 2021 and 2022.

I've done over 60 Freedom of Information requests to the Nova Scotia Department of Health and Wellness, the Premier's Office, and the Department of Education on COVID-19. Below you will find a snapshot of what I learned by putting the pieces of the puzzle together, links to real journalists who covered several of my Freedom of Information responses, a couple of short, simple videos that puts some of the data together, and the links for the FOIPOPs so that you can look at the data for yourself in order to make your own conclusions.

The snapshot

We know that the population of Nova Scotia is 1,007,049. There were 238,474 PCR tests done in 2020 and 1,347,912 PCR tests done in 2021 totalling 1,586,386 tests in two years and 1,564,643 or 98.7% of the test results were NEGATIVE. Yes, there were more negative test results than the population of Nova Scotia. FOIPOP 2022-00445-HEA Table I.

In 2020, there were 1,493 positives and in 2021 there were 18,953 positives totalling 20,446 positives in two years and 65 people died in 2020 and 49 died in 2021 which is 114 people. Basic math tells us that 0.55% of the positive cases died in two years or 20,332 or 99.5% lived. FOIPOP 2022-00445-HEA Table I and Table 3.

So we might want to know a few health details about the people who died.

The average age of death in Nova Scotia is 80 and those that are dying of COVID? The average age is 83 years old. Yes, those

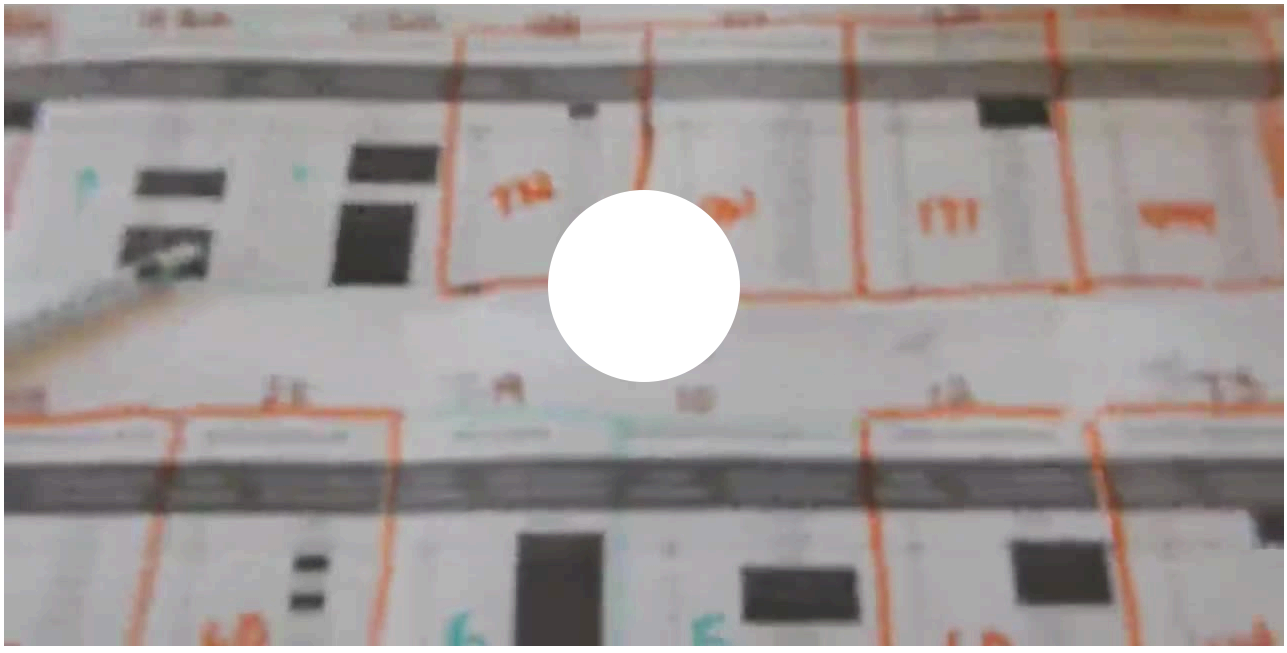
Shelly Hipson 2022 FOIA Video



Several articles have gone up on Canuck Law over the last year based on the work of Shelly Hipson. She's a Nova Scotia resident who's spent a fair amount of time attempting to get answers from the regime of Robert Strang, Tim Houston, and Iain Rankin. It's appreciated to see people taking the initiative.

Shelly has gone even further than making the results public. She now has a website, where the originals are posted. They are worth a read, in order to know what's been going on.

Now, this isn't to say that the information is all accurate. It is the government, after all. However, it's what has been provided, so take everything with a grain of salt.

https://shellyhipson.ca/

At the time of this being published, there are over 60 FOI available, with varying degrees of information handed out. The results vary from full disclosure, to "no records", to deliberate withholding.

There's a pretty significant document dump posted for curious eyes.

https://shellyhipson.ca/documents/CANS-vs-STRANG/

The 2 videos shown above are also her compilations, and are on the site. With permission, they have been rebroadcast on Bitchute, Odysee, and Rumble. Given YouTube's heavy censorship, that would not be a good place to post.

Thanks for posting. I don't know how I missed your post. She was just interviewed on the IronWill Report – https://ironwillreport.com/n-s-data-proves-no-pandemic-shelly-hipson-2/
